PART FIVE

The Society has in manuscript the records of the Town Meetings for several decades following 1759, and expects to publish them in this format in several volumes at a later date.

1966

Illustrated on Cover

Silver Tankard, gift of John Henry Burchsted, Physician, to the First Church in Lynn, April 25, 1721. Made by Andrew Tyler of Boston, Goldsmith, 1692-1741. Married the daughter of Sir William Pepperill of Kittery, Maine, who led the American forces that subdued Louisburg, June 17, 1745. Andrew Tyler used a number of various hallmarks. On this tankard the hallmark used was an AT within a shield, surmounted with a crown and below what appears to be a gauntlet.

Foreword

Our Society has already published Volumes One, Two, Three and Four of the records of the Town Meetings of Lynn, covering the period to 1742. These publications had a gratifying reception from State and University Libraries and Historical Societies all over the United States. Genealogists have found it very valuable, since the descendants of the early Lynners are now in every state in the Union. Scholars in the subject of American History found it to be important original source material.

Lynn in those days comprised a territory which is now divided into five municipalities: Saugus, Swampscott, Lynnfield, Nahant and the present City of Lynn. Residents of all these communities will, of course, wish to read about life in the little farming village within whose borders now live over one hundred and thirty thousand people.

We are pleased to be able to present with this volume an index. The index will be of great assistance to scholars and genealogists. The general reader who gives the index careful scrutiny will find it an adventure, for herein are the references that will lead him to the people and the life of those olden days.

Index

This index lists material found in this Volume. Each subsequent volume will contain an individual index. All indexes will contain entries of a historical, sociological, and religious, as well as of a genealogical nature, since it is evident that the Town Records will be of value to students in these fields.

Genealogists will find that certain individuals may be listed under more than one entry, due to the various military, civil, and religious titles acquired by these people and to the frequent scarcity of information contained in the Records themselves.

Quaint and inconsistent spellings of surnames also presented a problem and it is hoped that this method of indexing individuals exactly as listed in the Records, whenever the identity was in slight doubt, will prove the most satisfactory method to users of these volumes.
